Invitation

Dear Colleague,

The organising committee feels extremely proud and privileged in extending a hearty invitation to attend the workshop on basic molecular techniques being organised by Department of Biochemistry, All India Institute of Medical Sciences, Jodhpur from 14th – 18th March, 2023.

Rapid advancements in the field of molecular biology have stimulated research and significantly impacted progress in all the areas of biological sciences. Thus, a basic understanding of the molecular biology tools along with hands-on skill among the research scholars and students of various streams of biological sciences is critical. Hence, the main objective of the workshop is to acquaint the target group with a focused and comprehensive hands-on training on basic molecular biology techniques. The training will consist of sessions of scientific lectures, and practical sessions to impart thorough understanding about the molecular tools and techniques. The participants shall be encouraged to discuss about their ongoing research work with the trainers, which will be helpful to them.

Jodhpur is a heritage city and feast of recreational activities comprising of folk music, dance, food, art and handicraft. Jodhpur - the blue city, has always been a seat of cultural heritage and learning from time immemorial. There is so much to see, the majestic Mehrangarh fort, Umed Bhawan Museum and sand dunes of Osian to name a few.
