

# FIRST NATIONAL HAEMATOLOGY QUIZ FOR UNDERGRADUATE 2024

**NHQ - UG - 2024**

The subject Haematology traverses through first till final year of MBBS curriculum.

Knowledge of basic Physiology is important to understand Pathology and this helps in diagnosis and management of the haematological disorders. Many haematological disorders are potentially preventable and role of community medicine plays vital role. Keeping this in mind and knowing haematological manifestations of several systemic disorders, it's important to read and understand Haematology at undergraduate level.

We, Haematology academic activities of AIIMS Jodhpur, are bringing to you the first National Haematology Quiz for undergraduates.

The aim of the quiz is to increase the awareness of Haematology among undergraduate medical students.

## **Frequently thought questions:**
