CBCT - RELEVANCE IN TREATMENT PLANNING : AN UPDATE

07TH MARCH 2020

8TH CDE PROGRAM
ORGANIZED BY
DEPARTMENT OF DENTISTRY

Dear Colleagues,

On behalf of organizing committee, we take great pleasure in inviting you to the CDE Program “*CBCT -Relevance in Treatment Planning:- An Update*”

Cone Beam Computed Tomography (CBCT) is the modern diagnostic imaging technique for the teeth, jaws and face including the Temporomandibular joints (TMJ), Ear-Nose and Paranasal sinuses.

Use of CBCT offers a number of advantages over the Medical CT in clinical practice, e.g. lower effective radiation dose, lower costs, easier image acquisition and multi-planer 3D reconstruction of images which provides greater relevance in diagnostic interpretation and treatment planning.

The program aims to enhance our knowledge regarding the application and uses of CBCT in day to day Dentistry and utilizing this novel imaging technique in treatment planning for better outcomes.

Program Schedule	Timings
Inauguration	9:00 AM - 9:30 AM
Session 1:- Basic s of imaging, introduction to CBCT & its role in diagnosis & treatment planning. Greater relevance in OMFS, Implants and digital implantology.	9:30 AM - 11:00 AM
Tea/Coffee Break	11:00AM - 11:30AM
Session 2 :- Greater relevance of CBCT in diagnosis and treatment planning in Endodontics and Periodontics	11:30AM - 01:00PM
Lunch Break	01:00PM - 02:00PM
Session 3 :-Greater relevance of CBCT in diagnosis and treatment planning for Orthodontics and Pedodontics	02:00PM - 03:00PM

Category	Registration Fee	On Spot Registration*
Student/Interns	₹ 300/-	₹ 600/-
Faculty/Delegates/Resident	₹ 500/-	₹ 1000/-

*Note:- On spot registrations are subject to availability of seats.
