- Discussion regarding the non-conformities in infection control practices in the ICU, raised by CPCB, Jodhpur during their visit to AIIMS, Jodhpur on 30-8-19:
  - (a) Needle recapping before discarding into sharp container
  - (b) Syringe hub not being cut before discarding into sharp container

 Awareness posters regarding the same to be put up in ward and procedure rooms

- Air flow rate & humidity monitoring of modular OT's should be regularly checked & the report should be shared with HIC committee.
